

COMPLAINT FORM

THE YUKON MEDICAL COUNCIL

The responsibility of the Yukon Medical Council is to regulate the practice of medicine under the *Medical Profession Act*. The Council's aim is to resolve complaints involving practitioners fairly and effectively. If you are concerned about the conduct or care you have received from a doctor, you have the opportunity to make a complaint to the Yukon Medical Council.

Our goal is to have competent physicians practising safe medicine for the benefit of the public.

Making a complaint...

Resolving a complaint is achieved by understanding the situation and circumstances surrounding the issue from both the complainant's perspective and the perspective of the physician. Notice of complaints to the Yukon Medical Council are researched and reviewed thoroughly to ensure quality health care. Please provide as much information as possible to make sure the matter is clearly explained. Ensure that all the details provided are specific to your complaint. There is no requirement for you to have a lawyer to file a complaint. However, to be reviewed by the Yukon Medical Council, you must complete the following complaint form.

When a complaint is received....

As a first step in the investigative process, the Registrar of Medical Practitioners will determine the nature of your complaint (ie: treatment related, administrative, non-standard). The doctor identified in your letter will be provided with a copy of the complaint and asked to respond. Once all necessary information has been collected, qualified medical personnel, who may be from outside of Yukon, will review the file. If the physician, who the complaint is against, is a member of the Yukon Medical Council s/he will be excused from the Council during all discussions relating to your complaint.

Expectations and outcomes....

The Yukon Medical Council tries to ensure that any problems identified, as a result of an investigation, will be corrected.

The possible outcomes of an investigation may include:

- No further action be taken; evidence submitted does not support the complaint
- The physician take corrective measures, either by further education or a restriction of practice
- Disciplinary action
- Physician licensing be suspended

There are a significant number of situations where complaints arise due to misunderstanding or misinterpretation of the doctor's actions or instructions. Should this be the case with a matter brought forward, the Yukon Medical Council may:

- Assist in communicating your concerns to the doctor
- Bring the matter to the attention of the doctor, ensuring corrective measures are in place

When the investigation has been completed, you and the doctor will receive a decision in writing from the Yukon Medical Council. The complaint process will not result in financial compensation to you as financial awards are outside the authority of the Yukon Medical Council.

Appeals...

There is a level of appeal available to you should you choose to use that option. More information can be obtained from the office of the Registrar of Medical Practitioners.
